- Management of pregnancy complicated by medical and genetic disorders
- Reproductive genetics
- Non-invasive prenatal diagnosis

Biography

Dr. Shilpa P. Chetty is an obstetrician and gynecologist who specializes in high-risk pregnancy and perinatal genetics. She has a special interest in prenatal diagnosis, fetal anomalies and the management of pregnancy complicated by medical and genetic disorders.

Chetty completed a medical degree at Loma Linda University, School of Medicine, followed by an internship and residency in obstetrics and gynecology at Washington Hospital Center in Washington, D.C. Subsequently, she completed a fellowship in Clinical Genetics at the National Institutes of Health in Bethesda, Maryland, followed by an additional fellowship in maternal-fetal medicine at Stanford University. She is board certified in both obstetrics and gynecology and medical genetics.
