

## Mary E. Norton, M.D.

Professor

Vice Chair, Clinical and Translational Genetics

Director, Program in Genetic and Genomic Prenatal Medicine

### Contact Info

Practice Phone: 415/353-2566

## Curriculum Vitae

### Education

- University of Washington School of Medicine, Seattle WA 1986

### Residencies

- Tufts University Affiliated Hospitals, Boston MA 1990

### Fellowships

- UCSF Medical Center, Maternal-Fetal Medicine, Clinical Genetics 1993

### Board Certifications

- Obstetrics and Gynecology
- Maternal-Fetal Medicine
- Clinical Genetics

## Clinical Expertise

- Prenatal diagnosis
- reproductive genetics
- obstetrical ultrasound
- genetic screening

## Research Interests

- Comparative genomic hybridization
- Microarrays
- Genomic imprinting
- Cell free fetal DNA analysis
- Non-invasive prenatal diagnosis
- Patient preferences
- Decision analysis.

## Biography

Dr. Mary Norton is a Maternal Fetal Medicine specialist as well as a clinical geneticist. She specializes in the care of women at high risk for having a baby with a birth defect or genetic disorder. She oversees the prenatal diagnosis program at UCSF, and is an expert in high-risk obstetrical ultrasound and prenatal diagnosis procedures such as amniocentesis and CVS. Her research interests include the use of new genetic technologies for fetal testing, and she is a national expert in the use of cell free DNA testing. She also has a particular interest in patient attitudes and preferences regarding prenatal testing.
