Curriculum Vitae

Education

- MD and PhD: University of California, San Diego

Residencies

- University of California, San Francisco

Fellowships

- University of California, San Francisco ? Abdominal Imaging and Ultrasound

Clinical Expertise

- Abdominal Imaging and Ultrasound
- Informatics

Research Interests

- Dual-energy computed tomography, contrast media, tungsten, bismuth, enterography, pancreas, informatics, electronic medical record

Biography

John Mongan, MD, PhD, is an Assistant Professor in Residence in the Abdominal Imaging and Ultrasound subspecialties in the Department of Radiology and Biomedical Imaging at the University of California, San Francisco. He received his MD and PhD from the University of California, San Diego. He completed a one-year internal medicine internship at Kaiser Oakland Medical Center, CA, in 2009. Dr. Mongan finished his four-year UCSF Radiology residency in 2013, serving as a T32 research fellow in his third year. He was a recipient of the Margulis Society Outstanding Resident Research Award in 2013. This was followed by a UCSF fellowship in Abdominal Imaging and Ultrasound in 2014. His areas of research interest include informatics, electronic medical records, improving imaging efficacy, dual-energy computed tomography, and contrast media. In August 2014, Dr. Mongan accepted the position of Assistant Professor in the Abdominal Imaging and Ultrasound sections at UCSF.

Dr. Mongan takes an interest in improving quality, safety and efficiency of medical care through increased and improved incorporation of computers and technology. He helped lead a formal Quality Improvement initiative to ensure compliance with a new state law requiring radiation dose reporting. Dr. Mongan also enjoys mentoring and instructing radiology residents, explaining and illustrating imaging cases.

Dr. Mongan is a 2013 UCSF Margulis Society Outstanding Resident Researcher Awardee. He has published over 10 peer-reviewed articles, written a book, contributed to a case review book, and is first inventor on 3 US patents. He has also contributed to software development at UCSF and UCSD.
